Thank you for your interest in our 2024 London Marathon Weekend Package.

For your information, Action Heart is a health focused charity, based at Russells Hall Hospital in Dudley, that specialises in exercise rehabilitation, providing care for cardiac, stroke, cancer and long Covid patients (amongst many other patient groups).

Although we are not a commercial tour operator we have now accumulated close to 30 years of experience in providing our Action Heart London Marathon Weekend Package and feel it provides an excellent service to London Marathon runners and spectators.

The package tour was originally organised to support local runners who were participating in the London Marathon and raising funds for Action Heart, some of whom were ex-patients!! Since that time, the service has successfully supported many hundreds of runners and supporters, with the service overwhelmingly generating excellent feedback.

Please find enclosed our information booklet and booking form but do feel free to contact with any queries with any queries.

In the meantime, good luck with your training!!

Kind regards

ACTION HEART
